till it's gone.

SPOTLIGHT ON CONSERVATION

SHINING A LIGHT ON CONSERVATION LAND IN YOUR AREA

On the evenings of April 17 & April 18, in honor of Earth Day, there will be lights visible from where you are standing as Hill Country Conservancy literally shines a light on conservation. High powered spotlights are set up (temporarily) on some of the conservation easement properties in your area as well as along the future route of the Violet Crown Trail.

Imagine if these lands had been sold and developed; imagine the clear skies polluted by hundreds of additional residences; imagine the rolling green hills dotted with rooftops; imagine the water that falls on these precious lands having little to no filtration before seeping into our aquifer. HCC works tirelessly to create unprecedented access to nature on otherwise inaccessible land and preserve the natural beauty & open spaces of the Texas Hill Country - **forever**.
